

Track employee time accurately and reduce inefficiencies with Time Clock Basic.

Our TC Basic time and attendance device incorporates the latest time technology to empower your team to track time accurately.

Silk ID fingerprint sensor

Outstanding dry or wet performance

More efficient and accurate verification

Enjoy excellent new features including silk ID fingerprint sensor, new hardware platform, expanded fingerprint storage capacity, and more efficient and accurate verification. Infrared technology enables detection and provides higher energy efficiency.

Dimensions:

- 7.48 x 1.81 x 5.51 inches
- 4.3" Screen
- Modern design and interactive UI

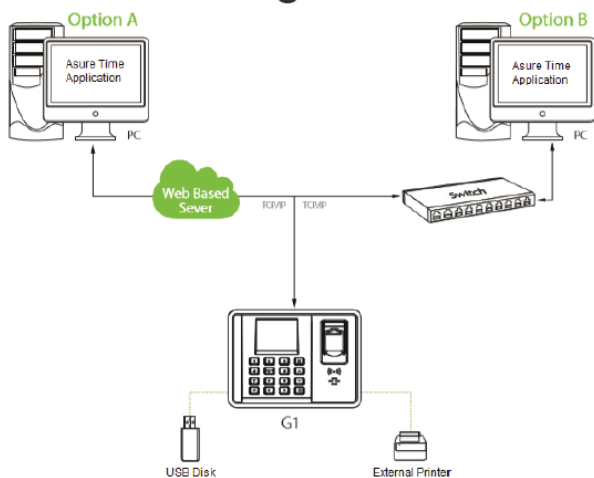

Hardware:

- Revolutionary SilkID fingerprint sensor
- Multiple verification modes: fingerprint, card, password
- 1.2 GHz high speed CPU memory
- 128MB RAM
- 256MB Flash
- Operating temperature 0°C - 45°C (32°F to 113°F)
- Operating voltage 5V DC
- Capacity
 - 5,000 fingerprints
 - 15,000 cards
 - 100,000 transactions
- TCP/IP
- USB Host/ Client

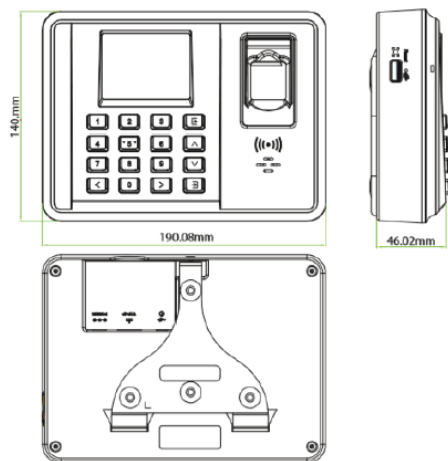

Employee Engagement:

- Supports department and job transfer
- Employees can use self-service functions to:
 - View available time off balance
 - Check history of time off requests
- See current, previous or next pay schedule

Configuration

Dimensions (mm)

Adaptable

- Hardened Linux OS
- Flexible Connectivity Options including:
 - Ethernet
 - WiFi (optional)

Simple Management

- Prevent time punches within same time period with interval checking

Versatile

- Supported Options include:
 - SilkID Fingerprint Biometrics
 - Proximity
 - PIN
- Prox ID cards or Prox ID stickers
- Easy to fit modules and peripherals:
 - Contact-less smart card readers including mifare
- Proximity card reader including HID proxy
