

Track employee time accurately and reduce inefficiencies with Time Clock Elite.

Our TC Elite time and attendance device incorporates the latest time technology to empower your team to track time accurately.

TC Elite Series

Supports facial recognition, Lumidigm fingerprint biometrics, proximity barcode. This time clock is designed to open up a world of possibilities for wider integration with HR Management Systems (HRMS) and a myriad of potential new applications beyond workforce management.

Dimensions:

- 9.1 x 10.8 x 3.8 inches with 16:9 aspect ratio
- Full color, multi-touch, 10" Screen
- 1280 x 800 pixel high resolution

Hardware:

- Toughened glass for use in high traffic environments
- Industrial grade ARM Cortex A9 Quad Core Processor
- 8GB high performance flash
- 2GB RAM and SDXC SD card slot
- Operating voltage 12V DC
- Internal lithium ion battery back-up, up to two hours
- Operating temperature 0°C (32°F to 113°F)
- Power over Ethernet 802.4af / 802.3af (optional)

Employee Engagement:

- Supports department and job transfer
- Employees can use self-service functions to:
 - View available time off balance
 - See current, previous or next pay schedule
 - Access time card history
 - Add Miscellaneous Pay
- Plays motivational, informative audiovisual content
- Access to training modules
- Integrates with room scheduling and booking services
- Access to web-based functionality

Simple Management

- Interval checking to prevent time punches within the same time period
- Punch and hours override (Supervisors)

Professional Services

- Elite Series Software Development Kit allows developers to quickly and easily create custom applications

Secure

- Secure, lockable case
- CE, FCC (Part 15 Class B) Certifications

Versatile

- Easy to fit modules and peripherals including:
 - Contact-less smartcard readers: including Mifare, iClass SE
 - Proximity card reader: including HID Prox 125kHz
 - Barcode card reader or external scanner: Multi-format
 - Fingerprint scanner: Lumidigm M320
 - 6 internal USB ports
 - High-quality 2x Integrated speakers
 - 5 mega-pixel, wide angle; supports photo/video (optional)
 - Microphone (optional)

Adaptable

- Based on the Android 6 operating system
- Runs native Android or HTML 5 apps
- Flexible connectivity options including:
 - Ethernet: 10/100/1000
 - WiFi: Intel dual band, dual stream 802.11ac (optional)
